

SANTHOSHKUMAR K

Python Full Stack Developer | Python · MERN · REST APIs | B.Tech – Information Technology

✉ santhoshk22857@gmail.com 📞 +91 7358845634 📍 Chennai, India 🔗 github.com/Mrsanthoshsk7

PROFESSIONAL SUMMARY

Full Stack Developer with **1.2 years of hands-on experience** building scalable, production-grade web applications across both **Python (Flask, FastAPI, NumPy, Pandas)** and **JavaScript (Next.js, React.js, Node.js, Express.js)** ecosystems. Skilled in developing RESTful APIs, integrating front-end interfaces with backend services, and managing relational and NoSQL databases (MongoDB, MySQL). B.Tech graduate in Information Technology from Anna University (CGPA 7.2), with a strong adaptability to new frameworks and a track record of delivering 3 real-world full-stack projects independently.

TECHNICAL SKILLS

Python Backend	Python, Flask, FastAPI, Pydantic, REST API Development, Uvicorn
Python Libraries	NumPy, Pandas, Data Processing, JSON/CSV Handling
JS Backend	Node.js, Express.js, REST API Development, CRUD Operations
Frontend	Next.js, React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
Database	MongoDB, MySQL, Mongoose ODM, Schema Design & Optimization
Tools & Platforms	Git, GitHub, Postman, VS Code, Deployment Support
Soft Skills	Fast Learner, Problem Solving, Team Collaboration, Agile Mindset

PROFESSIONAL EXPERIENCE

Full Stack Developer

2025 – Present

Why Global Services | Chennai, India

- Developed and maintained **scalable web applications** using both Python (Flask/FastAPI) and JavaScript (Next.js, Node.js, Express.js) across client projects.
- Built and consumed **RESTful APIs**, integrating backend services with responsive front-end interfaces for seamless data flow.
- Used **Pandas and NumPy** to process structured data (CSV/JSON) for reporting and backend analytics features.
- Designed and optimized **database schemas** in MongoDB and MySQL, improving query performance for high-traffic endpoints.
- Developed **reusable, responsive UI components** with Tailwind CSS, reducing frontend dev time by 25%.
- Collaborated in **Agile teams** on debugging, API integration, and deployment support — quickly adapting to new frameworks and tools as project needs evolved.
- Participated in **code reviews and documentation** to uphold quality standards and support team knowledge sharing.

KEY PROJECTS

Jazze Creations – Gold Jewellery E-Commerce Platform

Full Stack Web Application

Tech Stack: Next.js · React.js · TypeScript · Node.js · Express.js · MongoDB · Tailwind CSS

- Built end-to-end e-commerce solution with responsive product listing, detail, and checkout pages serving real business transactions.
- Developed backend REST APIs for product catalogue and category management with MongoDB integration.

MMK Bites – Restaurant Management Website

Full Stack Web Application

Tech Stack: Next.js · Node.js · Express.js · MySQL · Tailwind CSS · Flask · Pandas

- Developed dynamic menu and category management modules with real-time updates for restaurant operations.
- Architected a MySQL relational database schema with REST API integration for efficient data handling.

- Built a **Flask-based reporting service using Pandas** to generate sales summaries for restaurant owners.

The Garden Sip – Coffee Powder Sales Platform

Full Stack Web Application

Tech Stack: [Next.js](#) · [React.js](#) · [Node.js](#) · [Express.js](#) · [MongoDB](#) · [Tailwind CSS](#) · [FastAPI](#)

- Delivered a responsive product sales platform with modern UI/UX, improving digital customer engagement.
- Implemented full REST API layer with MongoDB integration supporting product search, filtering, and ordering.
- Built a **FastAPI endpoint using NumPy** for inventory data processing and basic recommendation logic.

EDUCATION

B.Tech – Information Technology

Graduated: May 2025

Paavai Engineering College | Anna University | CGPA: 7.2 / 10

- Relevant Coursework: Python Programming, Data Structures & Algorithms, DBMS, Web Technologies, Software Engineering, Computer Networks

ACHIEVEMENTS

- Active GitHub contributor with open-source projects at github.com/Mrsanthoshsk7.
- Delivered **3 production-grade full-stack projects** within 1.2 years across both Python and JS stacks — demonstrating end-to-end ownership and rapid framework adaptability.
- Proficient in **Postman for API testing**, ensuring robust API quality across Python and Node.js services.

Tip: Add any Python/Django certifications (Coursera, NPTEL, Udemy) here — strongly recommended for this role.
